

INSITE - Winter Issue 2010

Bring some tactility to your floor: the Nest Weave in Charcoal and (insert) Nest Weave in Natural 1. Both, POA, from the Earth collection.

IT'S ONLY NATURAL

This season it's all about introducing raw materials and natural tones into the home. New to the homewares market, these handcrafted rugs by Armadillo & Co are perfect for winter and the environment. We love that the rugs are one of a kind, plus made from natural wool, jute, cotton and hemp. Earthy dyes are used for the charcoal and ash tones to ensure the rugs are one with Mother Nature, while the texture is a variety of different weaves - including the nest weave, willow weave, pebble weave, honeycomb weave and rope weave - are reminiscent of those from the outdoors. Armadillo & Co (02) 9598 4045, visit armadillo-co.com.

NEW KID ON THE BLOCK

You love jumping online and visiting newware's e-store Pantoufle, then you'll be happy to know that you can conveniently walk through the doors of its new Subiaco store – shop 326 Subiaco Square Road. Owner Daisy Howell says she wanted to offer the experience of coming in and seeing and touching her beautiful finds. The store is filled with handpicked products from places throughout the world, such as South Africa, Morocco and Venice. We are already lusting after the Italian pashminas, silk scarves from Venice, leather Moroccan and Indian slippers, and tribal dolls (adorable children) from Cape Town. So, our top tip? Go armed with your plastic! [Pantoufle](http://Pantoufle.com.au) 9381 4260, Pantoufle.com.au

NEWS STYLE

WHAT A BELLE

When Italian lighting company Axo Light had a 'light bulb' moment, no-one knew how big that idea would become. Enter the Bell Lamp. This pendant is so enormous (180cm wide) that it comes with a space caution (maybe not, but it should!). Selected as the global winner of the 8th Annual *Elle Deco* International Design Awards in the lighting category, the lamp is in a league of its own. The oversized bell is a metal structure covered in ribbons of smooth, fireproof sponge fabric and is perfect for large open spaces (atriums, foyers, warehouses). It's certainly a pendant that's guaranteed to have an impact on any room. Available in 10 colours. *Alti Lighting* (08) 9284 2203, alti.com.au.

The Bell Lamp is big on size and designer impact. Prices start at \$1329.

PSSST... Arq Furniture has become Arq Design Studio and is on the move from Osborne Park to Subiaco – 326 Rokeby Road, to be exact. Settling in during July, we hear it will be a dynamic hub for architects and interior designers, plus show off its wares. Visit arqdesigns.com.au.
